STRUCTURAL STEEL QUALITY ASSURANCE PROGRAM

The enclosed application package contains the current Clark County Department of Development Services-Building Division (CCDDS-BD) Technical Guidelines which outline minimum listing criteria. Please note that Technical Guidelines are subject to revision at any time.

It is important that the fabricator understand that all fabrication is required to comply with the fabricators written procedures regardless of fabrication project jurisdiction. The Clark County approved fabricator program is currently accepted by several other jurisdictions in the state of Nevada and surrounding states. The fabricator is responsible for assuring that all fabrication meets any additional requirements imposed by other jurisdictions.

Thank you for your interest in the Clark County Quality Assurance Program. If you have any questions, please feel free to call:

Ken Konrad for Fabricator names between:	(A-L)	702-455-2734
Mark Hayes for Fabricator names between:	(M-Z)	702-455-8089

Enclosures:

- Application - Form 820
- Letter to Industry, Structural Steel Identification (rev. June 2006)
